

The Car Park Pick Up and Drop Off

Every school car park faces challenges and we are no exception. Firstly, thank you for your continued patience and generally considerate parking. Please can I just update you and remind you of some ways in which we can ease the traffic flow and reduce the 'car park rage' for all!

Please park considerately

1. Cars **should not be parked** in the numbered spaces in the morning, as it is preventing staff from parking and starting their working day.
2. Cars **should not be parked** on the yellow line or outside Miss Anders' office as this prevents school buses from parking and leaving.

The Crossing

There are two crossings at the school entrance with a waiting area by the tree in the middle.

In order to allow traffic to exit the school and ease congestion, please wait in this area when necessary, rather than cross both crossings at the same time.

Drop Off /Pick Up

We are considering moving the 'drop off' zone to ease traffic flow and will let you know when that is in place.

In the meantime, please drop your daughter off **as quickly as possible**.

Similarly, at the end of the day please pick up your daughter as quickly as possible and leave the car park.

We ask the girls to be collaborative and think of others, please 'role model' this in the car park! Thank you.
