Parents and Guardians of Year 8 Female pupils

Our Ref: HPV Year 8

22 January 2019

Dear Parents and Guardians

The School Nurse Team are due into schools to offer the HPV Vaccine that protects against Cervical Cancer and Genital Warts in the coming weeks and you should all have received information about this in the post with a consent form to return to school.

A member of the School Nurse Team will be attending all schools prior to the date for Immunisation and will give a short presentation to the girls. The aim of this is to give a little information about the vaccine but the primary objective is to reassure and try to calm any nerves. We have found in previous years that this has been helpful and gives the girls a chance to ask a health professional questions prior to the day.

We would encourage you to return the consent forms to school (even if you are declining consent) if you have not done so already. If you require a further copy of them please either contact your school who can provide a copy or the school nurses at Lukis House. Please also contact the school nurses if we can help any further.

Further information about the vaccine can be obtained at www.nhs.uk/vaccinations or www.gov.gg/schoolnurses

Yours faithfully

School Nurse Team
