The  
Ladies' College  
Guernsey

*Your guide*  
2020-21

# MOVING FROM YEAR 6 TO YEAR 7

The  
Ladies' College  
Guernsey

Welcome to The Ladies' College community.

We hope that you enjoyed the two day transition and that they helped you to meet new students, get to know some of the teachers and that you begin to find your way around the site.

Moving to a new school is both exciting and can be a little scary, with the biggest worry not knowing what to do or where to go. We are all keen to help and support you to make it as easy as it can be so that you are happy and confident and look forward to returning after the summer break. Your Year Co-ordinator, Tutor and prefects are the most obvious people to speak to, for help or advice in College, but absolutely anyone will help....we have all been new here once!

Our motto is **Fais ce que dois advienne que pourra : Do your duty come what may** and this reflects the attitude that we think best describes everyone at The Ladies' College. We hope you will be happy here and know that this happens when we all work hard to do our best and also are prepared to talk about the things that we are finding a challenge. In Remove, there may be more students than your current school, more subjects, more teachers, more movement between classes and perhaps a little more homework!

Embrace all of the opportunities that will present themselves to you whilst you are at College and we are really excited about getting to know you.

Ashley Clancy

Principal

# HELPFUL TIPS FROM CURRENT REMOVE STUDENTS

It is FUN having more independence so try not to worry beforehand!

I was nervous on my first day... but so was everyone. It's natural!

Have a talk to your parents about lunches: if you look at the Core menu in advance you'll see what days you want to buy food.

Get involved in clubs— they're fun and you make friends.

The teachers want you to do well and so they will help you!

I worried about getting lost but actually you find your way really quickly and at the start there's lots of help— you aren't on your own!

# HELPFUL TIPS FROM CURRENT REMOVE STUDENTS

Don't be afraid to ask questions.

Subject teachers, your Form Tutor, the Year Coordinator, classmates, prefects, Office Staff or ANYONE!  
Peers  
Mentors

Be prepared for more homework.

- Use your planner
- Remember to spend 20 minutes on a task

Work to the best of your ability.

- Ask questions in class
- Try your hardest
- Listen carefully
- No one is great at everything!

Take all the correct equipment to classes.

- Pens, pencil, ruler, rubber
- Scissors and glue are handy to have

Be who you are - you will make friends!

**LOOK SMART!**

Have a neat uniform, it will make you feel good!  
Is your skirt the right length?  
Is your hair tidy?

# YOUR FIRST DAY IN REMOVE

My form class is X Y Z

My form room is which is .....

My form tutor is

My House is Brock Durand De Sausmarez Carey

My house colour is .....

The Remove Co-ordinator is Mrs Appelqvist.

Her office is on the first near Room 12.

The Principal is Mrs Clancy.

The Deputy Principals are

Dr Mitchell. Mr Henderson. Mr Roughsedge

Mr Barnes (Director of Studies).

The Head Girl is Elsie Lister and her Deputies are Grace Moorshead and Beth Robinson.

On Monday 7<sup>th</sup> September, I should be in school for 8.20am.

When I arrive, I should go to my new form room.

I will need to bring my bag and pencil case.

On this day I should wear College uniform.

I will enter the grounds by either the Rocquettes Lane or Brock Road entrance, as on a normal school day.

# ART

'Don't think about making Art, just get it done. Let everyone else decide if it's good or bad, whether they love it or hate it. While they are deciding, make even more Art.'

The Department's purpose is to enable students to explore and express concepts, imagination and feelings.

A rich and vibrant Art and Design curriculum is in place for all students across all ages. A balanced course provides a broad base to enable students to fulfil their potential according to their individual needs.

The focus for Remove is 'line' and 'colour'.

By looking at work of artists and discussing how they may influence our work, students are encouraged to explore their understanding, and experiment with new techniques and materials.

AIMS

- ⇒ To employ teaching methods and resources that allows all students to have an equal access to Art and Design; to experience success and enjoyment
- ⇒ To develop creativity and imagination through a range of media and processes
- ⇒ To improve students ability to control materials, tools and techniques
- ⇒ To increase students critical awareness of the roles and purposes of Art and Design in History
- ⇒ To foster an enjoyment and appreciation of the visual arts and knowledge of artists, craftspeople and designers by attending

# DESIGN AND TECHNOLOGY

**Design and Technology** is a problem solving subject which involves students in designing exciting products using resistant materials such as wood, metal or plastics.

Everything that we use on a daily basis has had to be designed by someone somewhere, then made by someone somewhere too! This is something that we take for granted!

Some designs become iconic and easily recognised worldwide. How many things can you think of that might be classed as iconic in their design?

- Can you name the iconic designs shown below?

In The Ladies' College, we work with woods, metals and plastics to realise (or make) our designs. We use tools such as those shown around this page to cut, shape and make our work. We also use machines to help us, from a pillar drill to make holes, to the latest CAD/CAM laser cutter and 3D printers to cut, engrave and build our designs.

- Find out what CAD and CAM mean.
- How many of the tools on this page can you name?

# DRAMA

## Can you learn the stage directions?

The words 'upstage' and 'downstage' are used because traditionally stages slope downwards from the back towards the front. This is known as a 'rake' and is used so the audience have a better view of the actors at the rear of the stage.

- Centre Stage is usually the most important position as it is the area of central focus
- Downstage is closest to the audience making intimacy easier.
- Upstage is a position that allows the actor to do things which a character in front of them cannot see

# ENGLISH

## Reading Survey

**Answer the following questions to be discussed in your lessons.**

**I think reading is important because**

---

---

**I enjoy reading because**

---

---

**I read a lot because**

---

---

**What purpose does reading serve?**

---

---

# GEOGRAPHY

GEOGRAPHERS ARE NOSEY!  
THEY ASK LOTS OF QUESTIONS TO FIND OUT  
ABOUT THE WORLD WE LIVE IN

SO MANY QUESTIONS...

- What is happening here?
- Why is this happening?
- Where is this place?
- Who is responsible?
- Who is affected?
- What can we do about it?

GEOGRAPHY  
DEPARTMENT

# HISTORY

## How can pictures make us think differently about the past?

What work is this person doing? (Their job begins with “B”)

Look closely at how the person is shown: is this a man or a woman?

What era or time period do you think this picture was made? How can we know if this was typical men’s or women’s work at the time?

This photograph of a young child was taken in New York in the 1880s.

The child grew up to be president of the USA.

Why does the picture look so unusual to our eyes today?

In History at Ladies’ College, we use **evidence** to help us to understand the past and all its complexity. As these pictures suggest, we need to be careful not to jump to **conclusions**– there is one male and one female in these two images but they are not shown as we might expect!

Studying History is about you being a curious and questioning person.

# LATIN

You probably already use a little Latin. All these abbreviations are in fact from Latin:  
 etc. i.e. a.m. p.m. P.S. N.B. A.D.

All these words are Latin words which we use in English:  
 agenda, memo (randum), via, sponsor, editor, medium, aquarium, September, ego, arena, maximum, minimum, murmur, squalor, status, successor, minus, plus, doctor, habitat.

Moreover, many English words come from Latin: see if you can work out what the English

|          |         |             |  |
|----------|---------|-------------|--|
| amicus   | friend  | amicable    |  |
| nauta    | sailor  | nautical    |  |
| agricola | farmer  | agriculture |  |
| urbs     | city    | urban       |  |
| mater    | mother  | maternal    |  |
| annus    | year    | annual      |  |
| iratus   | angry   | irate       |  |
| sedep    | I sit   | sedentary   |  |
| porto    | I carry | portable    |  |
| audio    | I hear  | audition    |  |
| caput    | head    | decapitate  |  |

**As well as studying the language you also learn about Greek gods and heroes, and also some of the early history of Rome.**

# FRENCH

*When reading or listening to a foreign language, we can often figure out what is being said by just recognising a few key words. See if you can match up these fairy tales with the correct picture*

**Le petit chaperon rouge**

**La petite sirène**

**La belle et la bête**

**Jacques et le haricot magique**

**Les trois petits cochons**

*Which key words helped you to figure these out?*

---

---

## **DID YOU KNOW...**

*When French people greet their friends, or are being introduced to new people, they **faire la bise** - lightly kiss one another on the cheek.*

*It depends where you live as to how many times you kiss when you meet. In Paris, they kiss twice - once on each cheek, in the north and in Brittany it's three times and in the south, **FOUR** times!*

Visit the following link for some fun games: <http://www.french-games.net/>

# ICT

## What Makes a good Password?

To access the College Computer Network you will need a username and password. Your user name will usually be your surname and your first initial. So if your name was Susan Bloggs, your username would be bloggss.

A good password is one that is complex enough so that no one will be able to guess it but not too complex so that you might forget it.

Your password should contain a mixture of upper and lower case letters, numbers and another character such as a symbol. A symbol would be something like the - (dash).

In the space below write down an example of a bad password and then a good password.

Bad Password :

Good Password:

## E- Mail

You will also have a college email address this will be of the type username@ladiescollege.ac.gg. You should always use this email address for College work, communicating with teachers and students.

**My school email address is:**

## OneDrive

Along with your email you will also get 7GB of online storage called OneDrive. If you save files in your OneDrive you will be able to access them from any device anywhere in the world where you can get an Internet connection.

## Sharepoint

Sharepoint is a web site where your teachers have provided work sheets, web links, video's and pictures for you to use as part of your lessons.

Each Department has it's own area on Sharepoint and there are also areas for Houses, Sports and Music as well.

## Office 365

You also will have access to Microsoft Office 365 which are the online versions of Word, Excel and Powerpoint which you will be able to run on any internet enabled device.

## Wifi

The College has a site wide wifi network. This means that if you have a laptop, tablet or smart phone you will be able to connect these to the College network and access the Internet.

# MATHS

We love puzzles in the **Mathematics Department!** Mathematics is all around us as these puzzles show. When we learn Mathematics we learn how we can make sense of the World by solving problems methodically. At The Ladies' College you will develop your skills through Number, Algebra, Shape and Space and Data Handling. Have a try at some of these puzzles, just for fun!

## Which calculation is the odd one out?

100÷11   100÷22   100÷33   100÷44   100÷55  
100÷66   100÷77   100÷88   100÷99

### Can you find a number which has:

Two 1s which are 1 digit apart,  
Two 2s which are 2 digits apart,  
Two 3s which are 3 digits apart,  
Two 4s which are 4 digits apart

-----

$\square^2 + \square^2 + \square^2 = \square^2 + \square^2$   
make this sum work by **placing 5 consecutive positive integers** in the boxes

I spilled some alphabet soup onto a 3x3 grid (yeah, really). E is to the right of C. A is to the right of G which is above B, which is to the left of F. I is above D which is to the left of G. Complete the grid to show where it landed!

# MUSIC

*'Music is a moral law. It gives soul to the universe, wings to the mind, flight to the imagination, and charm and gaiety to life and to everything*

*Plato*

A curriculum is in place for students to reach their potential. All will perform, compose and appraise the work of existing musicians. Music lessons involve a lot of practical work and the composition of new music.

## *Aims*

- ◊ Develop an enjoyment and appreciation
- ◊ Increase awareness of music in a variety of traditions
- ◊ Improve technique and ability on a range of musical instrument
- ◊ Understand the development of artists and their careers

**TRINITY  
GUILDHALL**

# PHYSICAL EDUCATION

Can you practise the fundamental movement skills?

## Co-ordination

Overarm, underarm  
throwing, catching balls  
e.g. a rounders or tennis ball

Swimming 25m unaided is helpful.  
*Don't be worried about swimming.*

Simple balances: forward rolls, controlled  
jumping and landing

Knowledge of rules of tennis, rounders,  
netball, hockey, football etc.

# P.S.H.E.

## Have you learnt this in Primary School?

Components of a balanced diet

What factors contribute to good physical Health?

How to stay safe

What a drug is and medicinal drugs are good for us when used properly?

What makes friendships work and the qualities of a good friend?

The role of a good citizen in society

How to be a good citizen in their School Community

What organisational skills you will need to be a successful student

That bullying is unacceptable

The different forms bullying can take

## Here are a few skills we will work on in Remove

Active Listening skills

Communication skills

To be able to express an opinion

To be able to work in a group

To be able to work independently

To follow instructions

To contribute to class discussions

Participate fully in all activities and tasks

To have good literacy skills

To respect the opinions of others

Recognise and tolerate differences of individuals

# Religious Studies

If you knew you would never be caught, what would you do?

Is being happy the only really important thing in life?

Can a bad action ever be good?

Should we always obey the law?

Are all your actions basically selfish?

# SCIENCE

Have a go at trying **these** experiments:

## What do I need?

- A cup, baking powder and vinegar

## Instructions:

- Stand over a sink
- Add baking powder to the cup
- Add the vinegar

What do you see? \_\_\_\_\_

Is this a chemical reaction? \_\_\_\_\_

## What do I need?

- A jug, red cabbage, toothpaste, Lemon juice and Boiling water (and an adult supervising)

## Instructions:

- Squeeze the juice from the lemon into a bowl
- Add cabbage to the jug
- Add boiling water to the cabbage
- Add the toothpaste to the lemon juice
- Add the red juice from the cabbage to the lemon and toothpaste

What colours to they go? \_\_\_\_\_
