CareMonkey

CareMonkey is the online system we use to manage all aspects of
offsite visits. From September, it will be a requirement for you to have
activated your CareMonkey account and verified your daughter's
CareMonkey profile in order for her to participate in offsite activities
on or off the island. All parents/guardians received an email this
week about CareMonkey; if you have not yet activated your account
please follow the instructions contained in the email.

COVID-19 Coronavirus Information

Subject to any updated guidance from Public Health, we
intend to return to College in September continuing to
adhere to the best practice outlined below:

- Thorough and regular hand washing, not touching the face and
coughing into the arm are now accepted practice, in addition to
"catch it, bin it, kill it".
- Anyone who has **recently developed** respiratory/flu-like symptoms
(cough, sore throat, running or blocked nose, muscle pain,
headache, fatigue or a fever, loss of taste/smell or shortness of
breath), no matter how mild, should not attend school. This applies
to all colleagues and all students. **A minimum of 48 hours after all
symptoms have cleared should be observed before returning to school.**
