

## Sixth Forms in Partnership

24 May 2021

Dear Parents

### **Year 12 Geography Fieldwork June 22-24<sup>th</sup> 2021**

The Year 12 Geographers are undertaking three days of fieldwork on June 22<sup>nd</sup>, 23<sup>rd</sup> and 24<sup>th</sup>.

#### **Aim**

The reason we have set-up these three days is that fieldwork is a compulsory part of the A level course. Each student is required to complete four days of fieldwork over the duration of the two-year course. The students will also collect their data for their A level coursework, which is worth 20% of their final A level mark.

#### **What to bring?**

Please bring your fully charged **laptop** into College. They can be left in Room U3 when you are out doing fieldwork. You will also need a **packed lunch**, water bottle and suntan lotion. Please wear suitable clothes for doing fieldwork, such as wearing walking kit not jeans. Check the weather forecast the night before.

#### **Remote Supervision**

Please note that there will be some remote supervision on these fieldwork days, for example, when the students will be in small groups carrying out surveys in St Peter Port or taking beach and sand dune measurements along the coast in Guernsey.

#### **Brief Itinerary**

Each day will start and finish at Elizabeth College.

#### **Tuesday June 22<sup>nd</sup>**

- 0825 Registration in your normal tutor base. Ladies College in U3.
- 0850 Library- the librarian will give us a talk on referencing.
