

Sixth Forms in Partnership

A-Level Online Options Open Evening

1800 Wednesday 3 November 2021

Dear

Username:

Password:

We hope you have had an opportunity to watch some of the A Level presentations and that you have found them useful. The electronic version of the A-level course details booklet is available on the College websites or through the tab in the "General" channel in the A-level Choices Team. This contains details of the Joint Colleges' Sixth Form Prospectus for A-level Courses starting in September 2022, a paper copy of which you may already have received. The College websites also contain additional information you may find useful on our Sixth Forms in general and the individual subject departments.

The order of the evening will be as follows, with the Principals briefly introducing the evening followed by an opportunity to ask questions of teachers. You may attend as many sessions as you wish.

Programme:

- 1800 – Principals' welcome to the evening
- 1805 – Main presentation ends. Move to individual subject/channel meetings.
- 1810 –1818 Session 1: live subject Q&A
- 1820 –1828 Session 2: live subject Q&A
- 1830 –1838 Session 3: live subject Q&A
- 1840 –1848 Session 4: live subject Q&A
- 1850 – 1900 Optional final drop in "General" channel.

Sixth Form Pathways

We offer a choice of pathways through your Sixth Form studies:

Either three standard A-levels (the vast majority will follow this pathway) OR two standard A-levels plus one of:

- The London Institute of Banking & Finance Diploma (carries same UCAS tariff as an A-level)
- The London Institute of Banking & Finance Certificate PLUS Core Maths (each carries the same UCAS tariff as an AS level)

In addition, students may also choose one of the following:

- Further Mathematics A-level
- The Extended Project Qualification
- Core Mathematics

The Ladies' College and Elizabeth College students will need to complete their provisional choices online (www.studentoptions.co/ECLCoptions/) by **Friday 12 November** using the login details below. If you do not make your choices by this date we shall not be able to take your preferences into account when setting the Sixth Form curriculum.

You may choose from the following **provisional** list of A level subjects – those subjects which do not receive sufficient support at this stage will be withdrawn. Further detail on each of the subjects

can be found in the Subject Options Handbook and is also available on each of the College websites.

Ancient History	Computer Science	German
Art & Design (Art)	Drama & Theatre Studies	History
Art & Design (Graphic Communication)	DT (Product Design)	Mathematics
Art & Design (3D Studies)	Economics	Music
Art & Design (Digital Photography)	English Literature	Physics
Biology	Film Studies	Psychology
Business Studies	French	Religious Studies
Chemistry	Further Mathematics*	Spanish
	Geography	Sport & Physical Education

** Students selecting Further Mathematics should be aware that this counts as two subjects with correspondingly more workload and tuition, and that they will be expected to select two further subjects at A-Level.*

The College currently requires all entrants to the Sixth Form to have passed full course (I)GCSEs in at least 5 subjects at Grade 4 equivalent including Maths and English Language with grades 6 in relevant subjects to be studied at A-Level. However, most important is finding appropriate courses and your sons/daughters will receive guidance in making these decisions. Any such concerns regarding choices will, of course, be discussed with students and parents during Year 11/Upper Five and post GCSE results.

Mr H Barnes
Director of Studies
The Ladies' College

Mr R James
Vice-Principal
Elizabeth College

A Level Subject Choices: Entering your Choices Online

Please follow these steps to enter your three A-Level subject choices online, typing the following URL into your internet browser exactly as it appears here:

www.studentoptions.co/ECLCoptions/

Then login using your original details:

Username:

Password:

You should make 3 subject choices by entering the numbers 1 up to 3 against your choices (Further Mathematics will automatically include Mathematics). In case of difficulty please email Mrs K Sebire (ksebire@elizabethcollege.gg) or Mr H Barnes (hbarnes@ladiescollege.ac.gg).

Please complete these by Friday 12 November
