

Fire Safety

This policy should be read in conjunction with the College's Health & Safety Policy which sets the overall framework for the College's approach to Health & Safety matters.

Fire Safety - general principles

- All colleagues must ensure they are familiar with the Fire Safety policy and how to apply this in their departments/areas of work. The College has issued specific Fire Safety procedures (included as an Appendix to this policy) which are held on the colleague SharePoint site and displayed in each classroom.
- Form Tutors/Class Teachers are required to bring the procedures to the attention of all pupils/students at the start of each year.
- The fire alarm is signalled by continuous bell. [The alarm used in the event of a terrorism incident is an intermittent sounding of the alarm].
- Lifts are not to be used in the event of a fire alarm sounding.
- All pupils/students and colleagues leaving the premises **MUST** sign in/out at Reception.
- Lists of pupils/students who are taken off site during the school day must be provided to Melrose or Senior School Reception.

Managing Fire Safety

The school has delegated day to day responsibility for managing fire safety to the Premises Manager as "Fire Safety Manager"

The Premises Manager will :

- provide the Policy for Fire Safety and keep it updated as appropriate
- ensure that the requirements of Guernsey fire safety laws are observed, for example, by ensuring the maintenance of exits and fire routes. He will also ensure that the fire detection and fire warning system, emergency lighting and firefighting equipment (e.g. extinguishers) are maintained by appropriate personnel and subject to regular internal checks.
- Ensure that notices and signage relating to fire procedures are appropriately displayed and maintained
- Identify any special risks, e.g. the storage of hazardous materials, and with relevant colleagues put in place appropriate measures

- carry out and record risk assessments of the fire and emergency procedures on a regular basis or following any significant alterations to the workplace.
- arrange Fire Drills throughout the College at least 2 times per year
- ensure the Fire Log is completed correctly and updated regularly.
