Patrick now works for our partners, EPIC, the leading independent gambling harm-minimisation consultancy in the UK and Ireland. The organisation specialises in the identification and prevention of problematic gambling in high risk sectors. Patrick will share his personal story of living with a gambling addiction, and discuss the convergence between online gaming and gambling and how the two are interlinked. Additionally, he will provide insightful and impactful facts and figures around gambling and online gaming and why awareness and education is so important for parents and carers. This webinar is to help raise awareness and understanding of vulnerability and how individuals can protect themselves, as well as the part parents and carers play in safeguarding children.
