

10th February 2023

Dear Parents/Guardians and Students,

On **Monday 27th February at 5:30pm** we have two talks at The Ladies' College which you may be interested in attending. Both talks will happen in the Sixth Form Leaf Centre. We will discuss the applications process, considerations that you should be aware of and there will be an opportunity to ask any questions. If you are unsure which presentation is more appropriate to you at this stage, please contact me at hbarnes@ladiescollege.ac.gg

Medical and Veterinary Science presentation, Leaf Centre classroom

This presentation will be given by Dr Marshall, Head of Science, and is aimed at potential applicants for reading either Medicine/Dentistry or Veterinary Science, particularly in Upper Five and Lower Sixth as it focuses on the specifics of the application process.

Oxford and Cambridge University presentation, Leaf Centre

This presentation will be given by Mr Barnes and Dr Smith, and is aimed at potential applicants for places at Oxford and Cambridge universities i.e. those that are likely to achieve or have already been awarded a high proportion of 8 and 9 grades at (I)GCSE. A key theme is developing an enquiring mind, in addition to specifics on the application process for each of these universities. We will also discuss the support we provide to students including developing curiosity, questioning skills, and presenting counterarguments. This talk is also suitable for those that may be interested in the equivalent universities outside of the UK such as the American 'Ivy League' universities.

Please use the link below to confirm attendance at either of these events:
