

8<sup>th</sup> March 2023

Dear Parents and Guardians

### **GCSE Mathematics**

I would like to pass on my congratulations on behalf of the Mathematics department for your daughter's recent examination result.

It is now time to decide if your daughter wishes to continue studying Mathematics and be entered for the Higher Tier paper. Her mark cannot go down from the one that she has already achieved, but there is an opportunity to gain a higher grade on this paper. If your daughter is happy with the grade achieved and does not want to continue studying Mathematics, then she would be allowed to use this time to do other work. In this case, she would still attend the Mathematics lesson, but would work on her own at the back of the room on other subjects.

Please complete the reply slip below and return to your daughter's Mathematics teacher no later than Wednesday, 15<sup>h</sup> March.

Yours sincerely,

Mrs Carrie Gribbens  
**Head of Mathematics**

**GCSE Mathematics**

**Higher Tier GCSE Mathematics Summer 2023**

**Student's Name:**.....

**I confirm that my daughter would like to continue studying Mathematics and be entered for the Higher Tier paper in the Summer series of GCSE examinations.**

**I confirm that my daughter wishes to cease Mathematics and understands that she will still attend classes to work on other subjects.**

**Please tick appropriate box and return to your daughter's Maths teacher by 15<sup>th</sup> March.**

**Signed:**.....

**Parent/Guardian**
