Guernsey

At our core...

Curriculum update

- Our Intent:
 - Encourage
 - Create
 - Inspire
 - Flexible pathway at (I)GCSE
 - 7-11 (I)GCSEs
 - Sixth Form Partnership
 - Broad, balanced and relevant curriculum
- Future-Ready skills and Pathways

The
Ladies' College
Guernsey

&

Productivity Counselors: With the emphasis on productivity and “making a difference,” coupled with new tracking technologies, people will need help refining their lives to improve their productivity, combining ergonomics, wellness, time management and career counseling.

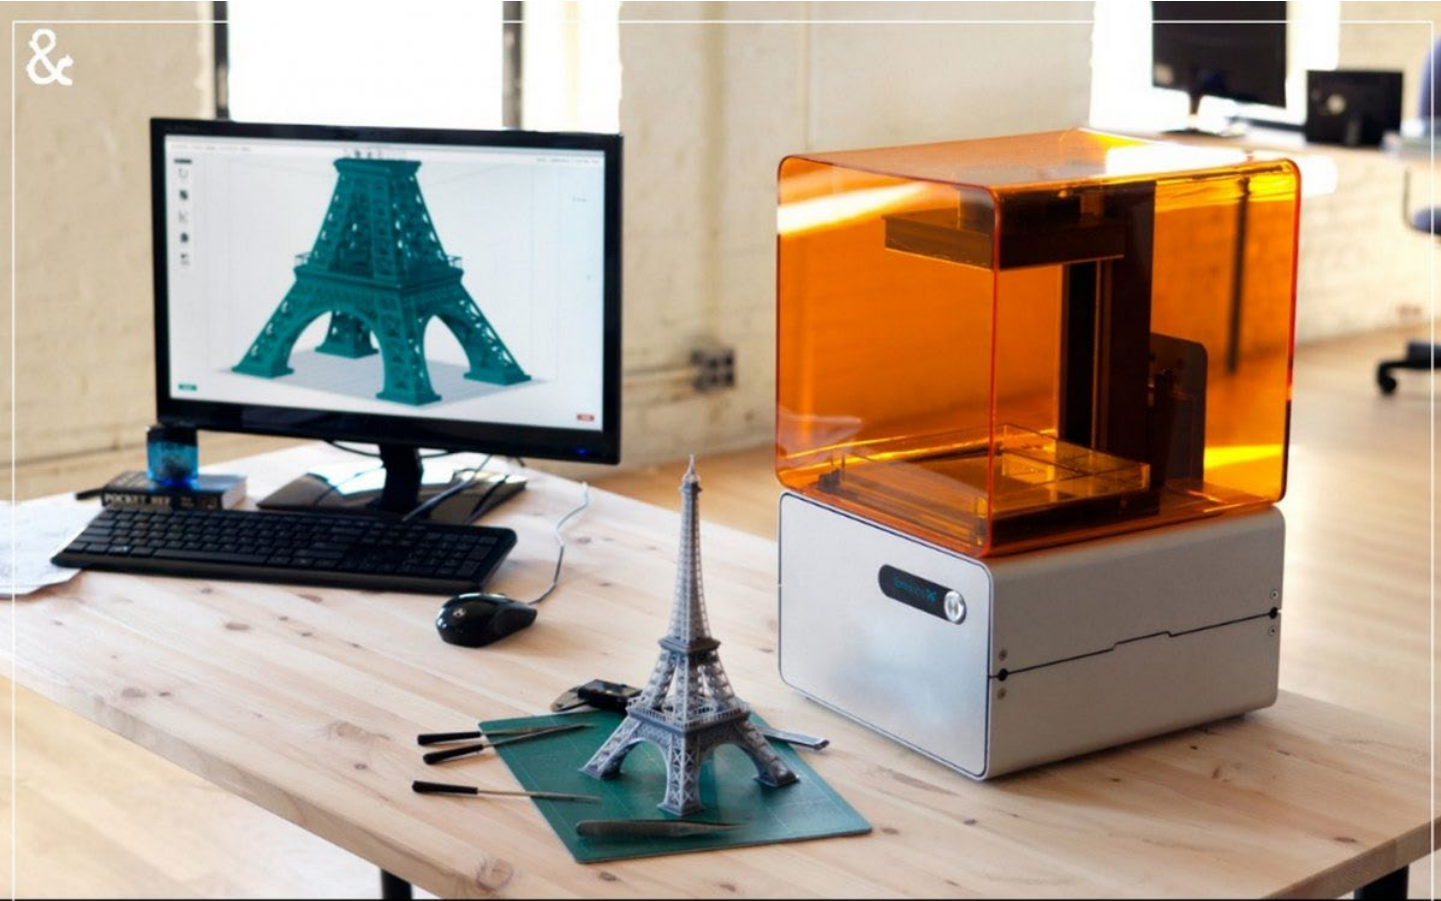

&

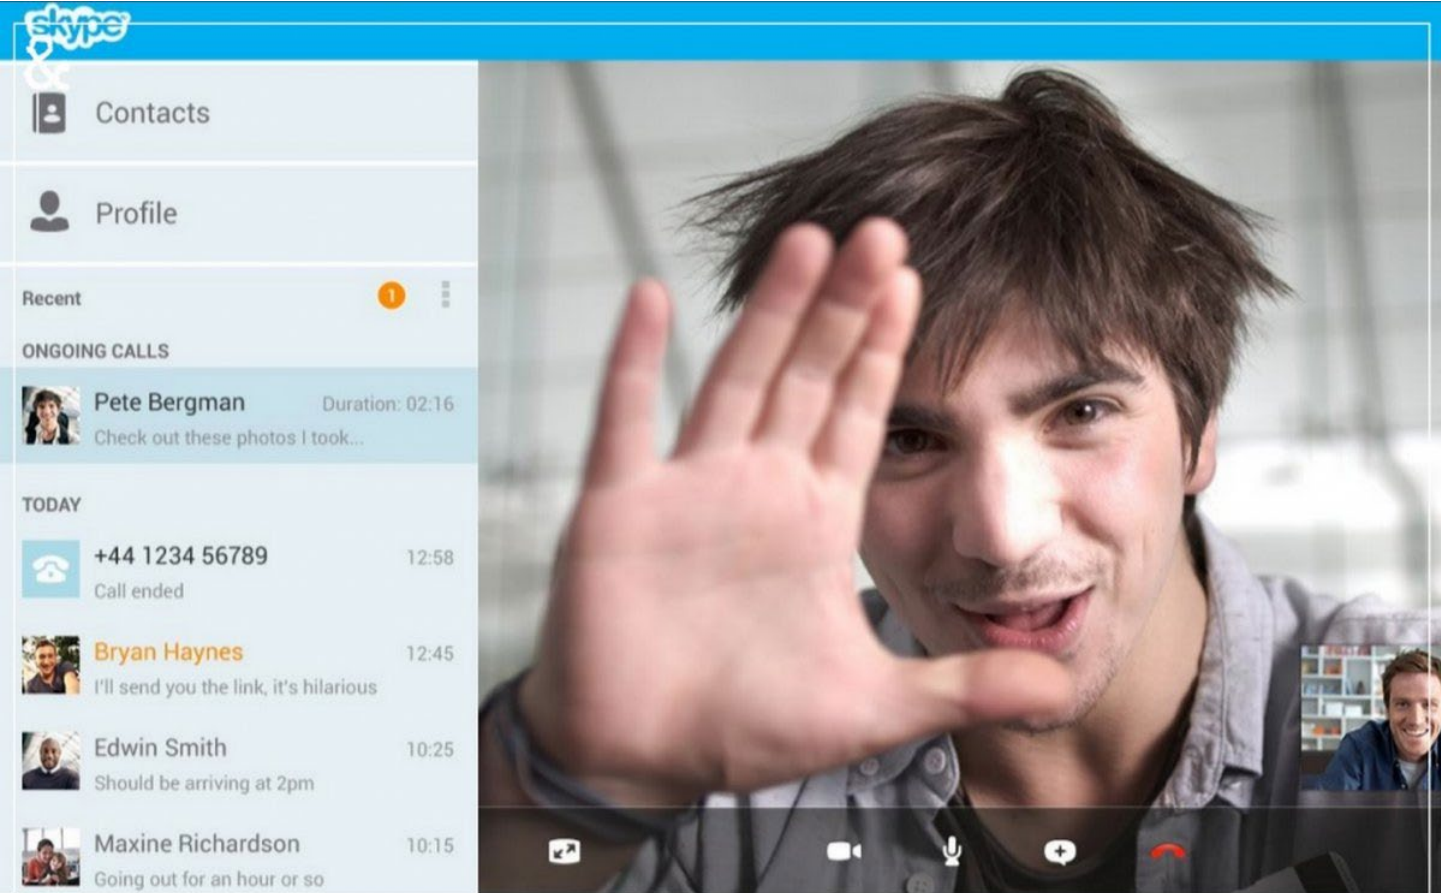

Alternative Currency Speculator: As Bitcoin and other virtual currencies are gaining traction with people who distrust Fiat currency; this is creating an opportunity for alternative currency arbitrage and investment opportunities.

Crowdfunding Specialist: A expert on sites like Kickstarter and Indigogo who understands how to promote and attain funds for a project through crowd funding.

Printing Handyman: A neighborhood materials and 3D printing specialist, akin to the “do it all” local repair man of the past who comes to you to fulfill your micro-manufacturing needs.

Skype Staging: Hired career advisors that prepare and help an individual work through remote interviews or video conferencing, including etiquette, appearance and conversational skills.

Drone Driver: Expanding outside of the military, as demand for commercial and private drone use increases, experienced drone drivers (especially those with urban experience) will be sought after.

&

Sorry NO
INTERNET Today

Digital Detox Therapist: A counselor who specializes in separating technology stressed individuals from their devices, creating unique analog immersion zones.

Educating for the jobs for the future

- Two of our most able pupils (3 A* each) went straight into employment with highly competitive placements based not on their academics but on their leadership and wider skills.

A decade ago, we couldn't imagine many of the jobs that exist today. Roles like social media manager and cloud services engineer weren't really possible.

<http://www.businessinsider.com/popular-jobs-in-the-future-2013-9#-20>

How many of these are a reality now?

The
Ladies' College
Guernsey

Development Priorities 2023-34

- Championing girls' education
- Encouraging innovative and dynamic problem solving

Of course! Here's a poem about a lion with a red balloon:

The lion with the red balloon,
Strolled through the savannah one afternoon.
The balloon was bright, the lion was proud,
Together they walked, never making a sound.

The other animals stopped and stared,
At the sight of the lion with the red air.
Some laughed, some smiled, some shook their heads,
But the lion and his balloon continued ahead.

They walked and walked until they reached, A place where the
grass was soft and sweet. The lion lay down, his balloon by his side,
And watched as the sun set in the sky.

The balloon floated up, up, and away, As the lion watched it go with
dismay. But he knew that it would come back soon, And he'd be
reunited with his red balloon.

So if you see a lion with a red balloon, Don't laugh or stare or shake
your head too soon. Just smile and wave and let them be, For
they're happy together, can't you see?

I hope you like it! Let me know if there's anything else I can help you
with.

Lion Red Balloon

"lion holding a red balloon"

Made by Bing Image Creator

Powered by DALL·E

Of course! Here's a poem about a lion with a red balloon in the style of Shakespeare:

Devouring Time, blunt thou the lion's paws,
And make the earth devour her own sweet brood;
Pluck the red balloon from the lion's jaws,
And let it soar high, above the wood.

The lion roars, his heart filled with woe,
As he watches his balloon fly away;
But he knows that it will come back, he knows,
And he'll see it again another day.

For though Time may take all that we hold dear,
And leave us with nothing but memories and tears,
The love that we share will always be near,
And will last through the ages, through all of our years.

Your personal and company data are protected in this chat

Certainly! Here are some ways high school students can use Bing Chat to improve their work:

1. **Research:** Bing Chat can help students research topics for their assignments. Students can ask Bing Chat to look up information on a particular topic, and Bing Chat will provide them with relevant search results. Students can also ask Bing Chat to help them find scholarly articles, books, and other resources that they can use for their research.
2. **Writing:** Bing Chat can help students with their writing assignments. Students can ask Bing Chat to help them with grammar, punctuation, and spelling. Bing Chat can also help students with brainstorming ideas for their essays and organizing their thoughts.
3. **Mathematics:** Bing Chat can help students with their math homework. Students can ask Bing Chat to solve equations, provide step-by-step solutions to problems, and explain mathematical concepts.
4. **Language Learning:** Bing Chat can help students learn a new language. Students can ask Bing Chat to translate words and phrases, practice pronunciation, and learn new vocabulary.
5. **Collaboration:** Bing Chat can help students collaborate with their classmates on group projects. Students can use Bing Chat to share files, hold group discussions, and work together on assignments.

Your personal and company data are protected in this chat

Certainly! To solve the equation $3x + 5 = y$, we need to isolate x on one side of the equation. We can do this by subtracting 5 from both sides of the equation:

$$\begin{aligned} 3x + 5 - 5 &= y - 5 \\ 3x &= y - 5 \end{aligned}$$

Now, we can isolate x by dividing both sides of the equation by 3:

$$\begin{aligned} 3x/3 &= (y - 5)/3 \\ x &= (y - 5)/3 \end{aligned}$$

Therefore, the solution to the equation $3x + 5 = y$ is $x = (y - 5)/3$.

I hope that helps! Let me know if you have any other questions.

| 5.  Curiosity and lifelong learning | 10.  Quality control |

Type of skill

 Cognitive skills  Self-efficacy  Management skills  Technology skills  Working with others

Source
World Economic Forum, Future of Jobs Report 2023.

Note
The skills judged to be of greatest importance to workers at the time of the survey

But in the next five years,
employers will be looking for:

- 1** Analytical thinking
- 2** Creative thinking
- 3** AI and big data
- 4** Leadership and social influence
- 5** Resilience, flexibility and agility
- 6** Curiosity and lifelong learning
- 7** Technological literacy
- 8** Design and user experience
- 9** Motivation and self-awareness
- 10** Empathy and active listening

A photograph of three people in a server room. A man with curly hair and glasses, wearing a yellow and brown plaid shirt, is pointing at a computer monitor. A man with glasses and a beard, wearing a light blue button-down shirt and a lanyard, is looking at the monitor. A woman with long brown hair, wearing a brown jacket, is also looking at the monitor. The background shows server racks with green indicator lights. A blue text box is overlaid on the bottom left of the image.

AI and leadership are skills of the future.

Employers surveyed said that 44% of the core skills needed for work will change in the next five years.

Thinking Mathematically

Exploring, questioning, working systematically, visualising, conjecturing, explaining, generalising, justifying, proving... are all at the heart of mathematical thinking.

These collections of activities are designed to develop your capacity to work as a mathematician.

Exploring and Noticing Structure

What mathematical structures do you notice as you explore these problems?

Working Systematically

Work on these problems to improve your ability to work systematically.

Thinking Strategically

Work on these problems to improve your strategic thinking.

Posing Questions and Making Conjectures

Work on these problems to improve your questioning skills.

Visualising

Work on these problems to improve your visualisation skills.

Mathematical Modelling

Work on these problems to improve your mathematical modelling skills.

Representing

Consider how alternative representations can help us to understand the underlying mathematical concepts.

Reasoning, Justifying, Convincing and Proof

Work on these problems to improve your reasoning skills.

Reformed (I)GCSEs and A-levels have increased emphasis on problem solving skills, especially at the higher grades.

Curriculum

Relationships Education, Relationships and Sex Education (RSE) and Health Education

Statutory guidance for governing bodies,
proprietors, head teachers, principals, senior
leadership teams, teachers

The
Ladies' College
Guernsey

Topics

Each year, girls cover the following topics:

- Health and well-being
 - Relationships
- Living in the wider world

The
Ladies' College
Guernsey

Health and Well-being

- Mental Health and Self Esteem
- Healthy Lifestyles (diet, exercise, sleep, dental)
- Road Safety
- Drugs, alcohol and tobacco
- Puberty
- First Aid

The
Ladies' College
Guernsey

Relationships

- Families
- Respectful relationships
- Identity and diversity
- Online relationships
- Being safe (law, consent, exploitation)
- Intimate relationships and sexual health

The
Ladies' College
Guernsey

Living In The Wider World

- Careers
- Goal setting
- Local Government
- Economic well-being
- Key Stage 4 Options

The
Ladies' College
Guernsey

Agency Support

The following agencies support our teaching.

- SHARE (sexual health and relationships educators)
- Action for Children
- The Youth Commission
- Safer
- St John's Ambulance
- The Oral Health Team
- Dementia Friendly Guernsey
- Guernsey Police

The
Ladies' College
Guernsey

Sex Education

Sex Education is an important part of the curriculum.

It is taught in an age-appropriate way by specialists from
SHARE.

You do however have the right to withdraw your child from
sex education lessons. This must be done in writing to the
Principal.
