

8th December 2023

Dear Parents/Guardians

We are planning an educational trip to Geneva that will take place in the October half term of 2024 (23rd – 27th October 2024). I will be acting as the visit leader.

The Geneva trip will provide students with an excellent opportunity to learn outside of the classroom and to deepen their knowledge and understanding of Physics, History, Art, Politics, and many more academic areas. As well as allowing the students to experience and enjoy the culture of Geneva. During the visit, there will be opportunities to visit famous landmarks such as the UN Headquarters, and the Large Hadron Collider. The students will have the opportunity to engage with a range of activities, including tours of historic landmarks and areas.

We will be having a short meeting for all students interested in attending the trip early next term, however, at this stage we would like to find out how many students would be interested in this opportunity.

The trip will cost approximately £1000, which will include flights, accommodation, and pricing for all activities that the students will be involved with. If your child would like to attend, please can you pay a £50 non-refundable deposit to the following bank account by **Friday 15th December 2023**.

Bank:	Natwest Bank
Account name:	The Ladies' College
Account Number:	06017614
Sort Code:	60-09-20

We have no doubt that the students will benefit a great deal from this trip to Geneva, and hope that your child can be part of this exciting opportunity.

Yours faithfully,

Rialette McGregor

Mrs Rialette McGregor
Head of Physics

Geneva trip – October 2024

Please return to Mrs McGregor
